

Philadelphia, September 16th 1935

President of the P.C.A.

Dear Sir:

Arrived here this afternoon and telephoned the LuLu Temple Country Club. After receiving directions as to its location and the route, I drove there later and addressed a meeting of this section's P.C.A., presided over by the president, Ed Dudley. Besides members and several golf journalists, there were some green committeemen.

I explained in detail the motives of our service and immediately Dudley booked requests for the service, which will completely fill the remainder of the week. Those in attendance freely expressed their approval and appreciation of the course service plan of the P.C.A. and Dudley asserts that there will be many more requests later on.

Altogether the meeting was successful and the general discussion of various matters of course interest brought forth some very interesting points. I am much pleased with this first reaction of the Philadelphia district.

Very truly yours,

W. H. Gillingham
